

CANADIAN AME COMPETITION

MAY 6-7, 2025 | BEST WESTERN PREMIERE PLAZA | CALGARY, AB

**CHECK OUT THE EVENT AT
ALBERTASUMMIT.COM**

IT IS BACK AND EVEN BIGGER!

Join us for two full days of AME challenges and competition, placing airlines, MRO's, manufacturers, and the Canadian Forces head to head to declare a champion through both time trials and scored skills!

Challenges include structures, avionics, maintenance, virtual reality, and out of the box problem solving! Our teams will not only be on showcase to attendees of the Aviation, Aerospace, and Defence Summit taking place alongside the event, but we will also welcome hundreds of local high school students to explore careers in Aircraft Maintenance!

ENGAGED STUDENTS, ENGAGED FUTURES.

The AME Competition will once again welcome hundreds of high school students to complete hands on activities, try out challenges, meet aviation mentors, and hear from schools and the Canadian Forces in career opportunities. This event is structured to start the conversation, and engage student minds into career options within aviation, and aircraft maintenance!

HANDS ON ACTIVITIES!

Students will have the ability to work through trivia challenges structured as a scavenger hunt, learn to rivet, learn how to lock wire an engine, and complete numerous virtual reality challenges that place the student in an Aircraft Maintenance Engineer environment. With aviation partners on site and our teams eager to share their stories, the students will gain valuable insights into the career of Aircraft Maintenance, and the amazing opportunities within aviation (including structures and avionics career opportunities).

**INTERESTED IN BRINGING YOUR CLASS TO THE AME
COMPETITION IN MAY? EMAIL YOUR FORM TO
